1841 Census

For the purposes of the 1841 Census (6th June 1841), the Parish of Lochbroom was divided into Enumeration Districts: each was allotted to a Census Enumerator.
The numbers in brackets (1-4 etc.) are those of the pages in the original Enumerator's Reports.

Enumeration District 2 Strath Mor

Achlunachan (1-4)
Crofton (5-8)
Inverbroom, Irkil (9)
Achendrain, Lubmhadie, Strone (10)
Summaries (11)

Enumeration District 3 Lochside

Clachan, Altnamhurton, Letter (1)
Letter (1-9)
Ardindrean (9-11)
Rhiruadh (11)
Loggie (12-18)
Altnaheri (18)

In the 1841 Census no details are given of the relationships between the head of the household and the rest of the family.

The numbers 1., 2. etc. in the following lists are not in the original Census Enumerator's Reports; they give the order in which the families appear in the Reports; which presumably is the order in which the Enumerator visited the dwellings, so perhaps their spatial position on the ground.
Of course there were no street numbers.
These numbers are not the Croft numbers assigned by the Estate.

The sign > means that the same person is present again in the 1851 Census, in the same township, for example at position number 11.

1841 Census: Enumeration District 2

'This district commences at the head of the Big Loch, and embraces as much of the Big Loch as lies on the South Side of the river Broom. From the head of the Big Strath it extends on the South Side of the River Broom to a house called Luprataig.'

On page 11, 'Remarks of Schoolmaster or other Person appointed to divide the Parish by the Sheriff or Provost':

'A very considerable number leave the Parish about the beginning of July in order to prosecute the herring fishing in the Moray Firth and on the coast of Caithness. A still greater number leave the Parish about the middle of August in order to get employment as shepherds in the Straths and East of Scotland. All of these persons return in about two months after leaving home. It is during the winter season that there are fewest away from the Parish. Notwithstanding, were the Census of the Parish to be taken at any time during the incoming winter, I do not suppose that there would be 100 found over and above the number now taken.
Almost every year for a considerable time back a greater or less number have left the Parish for British North America. About 50 individuals have sailed within the last six months.'
